AN INDEPENDENT NEWSPAPER IN PUBLIC SERVICE —

Forecast for Edmonton morning is a "dry" word.

Highest temperature for the week was equalled Friday when the mercury peaked at 22°C. The sun blazed down out of a clear sky, to provide the first real summer setting in weeks.

The temperature Saturday was 22°C at 4:00 a.m., but Old Sol was burning down with pitiless fury when the morning sun cleared the atmosphere of a new record for the month to date.

Third Party Movements Never Succeed

By R. T. ELLIOTT, KC.

Every Third Party is based on a reform policy; and every Third Party fails because reform does not feed anybody. The Populist Party in the United States had high ideals and great energy. It was based on a practical and a just reform policy. It was the late Theodore Roosevelt and his Bull Moose

temblor could not hold a voting support in the United States because his policies were in reform. Everybody is for reform in the abstract, once the matter of regular wages is certain.

Out of the abuses resulting from greed-crazed special privilege temporarily in control of government, there must be some national-wide agitation and thereby movements, but their usefulness is limited to pointing out the needs for remedial action.

The remedial action, however, is always actually brought about by that political party which stands for action and construction, as opposed to the party which stands for special privilege with deflation as a sure result.

In order to make remedial action effective—translated into the language of three needs of the nation—there must be a third party with adequate wage scales and salary standards must be restored. Second, the volume of national commerce, both domestic and international, must be increased to at least what it was before the consuming deflation imposed on us by special privilege.

The buyer having the money in hand to buy with is the factor for success in business. The buyer has the money in hand by restoring earning power and in no other way. Even could all business methods be reformed so as to comply with the Golden Rule I would not make up for the absence of the buyer with the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

to be restored steady work for at least two hundred thousand men in the mining and marketing of Canadian coal now locked up in the ground by unpayable freight rates. Upwards of six hundred thousand dollars per day of increased earning power will be immediately reflected in better business conditions.

Opening up transportation facilities for the Peace River Empire at an expenditure of not over ten million dollars, by extending the existing railway to the junction of the great rivers at Finlay Forks, will provide homes and work for at least one million people; and their immense earning power will be immediately reflected in better business conditions.

By opening the gates of commerce and getting on a basis of fair and friendly reciprocity with all the world, will complete the trade remedy.

Until these things are done, any ethical reforms will merely be a re-classification of calamities. Until work, food and clothing, under fair and reasonable living conditions, reforms are merely motives to hang on the walls. Inability to realize these truths is the reason why third parties are never permanent institutions.

Nobody needs to claim that the policy of Liberalism is perfect, but the only times of real prosperity in Canada for the rank and file (and that includes everybody) were when the Liberals were in power at Ottawa, because it is absolutely true that the Liberal policy is one of action and construction. These are the things necessary today, and the now certain recall of the Liberals to power will bring them to you personally no matter what your political beliefs. You are coming back under an era of renewed and abundant fair opportunity; no fairer opportunity could be made on behalf of any political party.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

For this reason, the greatest immediately effective reform will be the price.

LIBERALS APPEAL TO VOTERS ON REFORM PLATFORM

New Deal Program Will Aid Men and Women of Alberta

ALBERTA'S PROVINCIAL LIBERAL LEADER

When W. R. Howson, K.C., M.L.A. took over the leadership of the Liberal party in Alberta he determined to formulate a platform of Liberal policies which would and could give Alberta a New Deal. With that end in view he called a series of economic conferences at various strategic points in the province. No section was overlooked and men and women of every walk of life, in every profession, trade or industry dealing with the economic life of Alberta were invited to attend and take part regardless of political faith or affiliation. These were not abstract discussions with academic theories, but plain talks, in plain language, with plain people. They were designed to find out the problems confronting the people of Alberta today, and with the aid of those most concerned, to find solutions to those problems and to come to grips with them to the end that the people of Alberta could be given legislation and an administration that would attain that end. The result in the Liberal platform here enunciated, and to which Mr. Howson and his followers stand fully pledged. Read it; digest it. It is the line on which the Liberal party will fight the coming campaign.

I.—Agriculture

To directly, energetically and definitely assist Agriculture by a reorganization of that department along lines to give definite and efficient leadership in all branches of farming, and particularly:

- By obtaining markets for farm produce;
- By fighting for reductions in freight rates;
- By changing the regulations affecting grazing and hay leases to make them advantageous to the livestock producer, and to further assist him in broadening the livestock market by fighting for a reduction of tariffs and for advantageous trade agreements relating to the livestock market, especially in Great Britain and the United States, and by legislation to regulate the packers competing with the producer and farmer in the feeding and finishing branch of the business;
- By a complete reorganization of the policy affecting the irrigation projects in order that the settler may have an assurance of building up a future home, and to encourage the development of the sugar-beet industry and all other special lines of agriculture which can advantageously be pursued on irrigated lands;
- By an energetic policy for the eradication of noxious weeds;
- By a definite and aggressive policy towards remedying the conditions in those parts of Alberta where water supplies are limited or likely to become limited, by taking immediate steps to conserve and distribute the water resources therein, by preservation of forests and afforestation, the storage of flood waters, the return of water into natural water courses, and natural reservoirs and such other methods as may be necessary or calculated to resist drought encroachment;
- By working for a revision of the system of the grading of grain whereby the producer shall be paid on the basis of use-content, and investigating grain price spreads;
- By a complete reorganization of the department in order to direct its efforts to meet the needs of present-day Agriculture and to eliminate the waste of money due to the overlapping of the experimental work carried on by the Dominion and the Province;
- By amending the Homestead laws to definitely assist the new settler in securing a home for himself and his family, and particularly to relieve the burden placed upon the homesteader in the bush country, and also by amending the laws affecting taxation of homesteads;
- By special attention to the improvement of market roads;
- By dealing effectively with the adjustment of excessive debts both at provincial and interest;
- By a complete revision of the present system of taxation;
- By greater assistance to rural education;
- By the steady development of proper health services;
- By development of communication with the new settlements;
- By regular conferences with Alberta agriculturists dealing specifically with their problems;
- By a thorough investigation into the cost of gasoline, oil, farm machinery and the necessities for farming operations;
- By an energetic policy to obtain working capital for agriculturists at reduced rates of interest.

II.—Relief of the Taxpayer

- To relieve the taxpayers by reducing the annual cost of Government by a complete reorganization of every department of the government in order to increase efficiency and to eliminate the tremendous waste, duplication and unnecessary expenditures which exist at the present time;
- To reduce taxation by a substantial reduction in the interest paid on the bonded indebtedness of the Province;
- To relieve the taxpayer by stopping the annual increase of interest debt by administering the affairs of the Province so that we spend less annually than we collect;
- To relieve the taxpayer and assist the municipalities and school districts by:
 - A proper division of the revenues collected by the Provincial Government as between the Province, the Municipalities and the School Districts, in order that the proceeds of taxation may be fairly distributed;
 - A complete revision of all sources of tax in order that the taxes may be reduced and made to apply more fairly on all the people;
 - To relieve the taxpayer by decreasing the interest-bearing debt of the Province by applying the net capital revenue derived from the natural resources and all other net capital revenue to the reduction of the public debt;
 - Until such time as our system of public financing is changed to relieve the taxpayer by providing that all future bond issues of the Province of over five years maturity shall be callable so as to enable the Province to refund such bonds at lower rates of interest;
 - By providing that a proper sinking fund shall be maintained.

III.—Protection of the Home

Not during the continuance of this depression the home shall not be lost by reason of the owner's inability to pay debts or taxes.

IV.—Public Health Service

- For children.
- Public health service is even more important to the young than to education. Without reasonable health the other things of life count by little. The cost of health service to youth must be

ALBERTA'S PROVINCIAL LIBERAL LEADER

W. R. Howson, K.C., M.L.A.

To the Electors of the Province of Alberta:

In 1922 there assembled at the City of Edmonton from all parts of Alberta a large body of women and men with the determination—firstly, that affairs of this Province must be changed—that no longer must our people be neglected; and secondly, that they were prepared to see that the change was brought about. With these things in mind the Alberta Liberal party was reorganized. It was determined that no longer must the Government policy of "drift" and "carelessness" be allowed to continue; no longer must the poor be exploited and taxation increased from year to year; and no longer must waste be permitted.

In order to accomplish these things and to give Alberta a new start, people engaged in every industry and interest were consulted. By correspondence, consultations and conferences, opinions and suggestions were obtained from the grain growers, the livestock breeders, the best-growers, the homesteaders, those living on the irrigation projects, the teachers, the returned soldiers, the unemployed, the coal, oil, lumbering, fishing, merchandising and manufacturing industries, the transportation interests, the school and municipal districts, and every other line of endeavor for the purpose of building up a Reform Policy, a People's Policy, a Taxpayers' Policy.

It was believed that the problems confronting the people of Alberta at this time could be solved by direct and definite action in the province rather than by fruitless trips to Toronto, Regina, Winnipeg, Montreal, Vancouver and Ottawa as our Government

viewed in the same light as cost of education. It is definitely a public obligation.

(b) For All Persons.

The Liberal party supports the following resolution proposed by the Liberal members of the Alberta Legislature on April 14, 1934:

"Whereas proper medical attention is imperative to the people of this province; and

Whereas to a large percentage of our people medical services are not now available; therefore be it Resolved, that this Legislature is of the opinion that the government should subsidize sufficient medical practitioners and should also provide sufficient district nurses to attend to the needs of those people living in those areas where medical service is needed and are not now available."

(c) Child Welfare and Health.

WHEREAS the Liberal women of Alberta feel that the children of Alberta are one of the country's greatest assets, our future citizens and leaders, and

WHEREAS present living conditions are seriously undermining our children's physical and mental health and morals;

THEREFORE BE IT RESOLVED, that we, the Liberal women of Alberta, urge that immediate steps be taken to provide better health education facilities and a general improvement in living conditions, having in view primarily the welfare of our children.

(d) Health Insurance.

RESOLVED, that the Liberal party approve the principle of Provincial Health Insurance covering the fields of hospitalization, medical and dental services, and nursing, and that the policy of the Liberal members of the Legislature in regard to health matters be extended until a feasible and adequate scheme of Provincial Health Insurance is worked out and introduced by a Liberal administration.

V.—Education

Enlightened citizenship being the indispensable basis of successful participation in the school system and the proper enjoyment and utilization of our heritage, material and intellectual, the Liberal party stands for equal opportunity in education for all children and youth.

- By more adequate grants to school districts;
- By more supervision of our schools in order to increase efficiency;
- By a reasonable form of contract to meet the requirements of the teachers and school trustees in order to eliminate the dissatisfaction which now exists, and to make the teaching profession sufficiently attractive to enlist the services of the most capable teachers and men.

The Liberal party when in power will take steps to bring about more uniform public school and high school curricula as between the western provinces without in any way limiting the number of optional courses within the provincial systems, so that unnecessary loss of time, repetition of work and the purchase of new text books now entailed in the transfer of a student from one provincial system to another may be eliminated.

The Liberal party promises a thorough investigation of public school and high school curricula and their relationships to the child, greater emphasis being placed on the necessity of building the curricula to suit the child rather than the moulding of the child to the curricula.

The Liberal party will place greater emphasis on Agricultural, Physical, Pre-vocational and Technical education.

has been making. Instead of facing our problems and trying to solve them our Government has been running away from them and the result has been disaster.

The considered opinions of the Alberta people, regardless of political affiliation or industry, have been obtained and consolidated in the platform which the Alberta Liberal party is submitting for your consideration. This platform is different from any that has ever been adopted by any political party in this province. It is not general in character but is specific as to what must be done and will be done. It is the expression of the people of Alberta, and it is out of the minds of the people of our province that the solutions of our difficulties must come.

In presenting this platform to you the Liberal party is at the same time requesting you, regardless of what your past political leanings may have been, to send us your personal suggestions as to what you believe will be good for your own district and for the province as a whole.

The Liberal party is asking you to join in giving Alberta a New Start, a New Deal.

Yours sincerely,

W. R. Howson

Address:
Second Floor, Bank of Nova Scotia Bldg.,
Edmonton, Alberta

VI.—Ex-Servicemen and Their Dependents

(a) To work to the end that no returned soldier and no dependent of a soldier may be handicapped by reason of the service which was rendered by such soldier;

(b) To definitely and actively fight for the betterment of the condition of the ex-servicemen and the dependents of ex-servicemen, and particularly to work to the end that the contents of the resolution set out on page 269 of the Journals of the Legislature, 1934, be fully implemented.

VII.—Unemployment

(a) UNEMPLOYMENT RELIEF must be afforded to all who are entitled to it, but the Liberal party maintains that it is a Federal responsibility and that the Province and Municipalities should be relieved of the liability in connection therewith.

Until this responsibility is assumed by the Federal Government the Alberta system of administration should be reorganized on the following basis:

1. In all cases relief should be fair and adequate to those requiring it.

2. A work program, instead of a dole system, should be inaugurated for those able to work, through no fault of their own, are unable to find employment, and a dollar should be paid for every dollar's worth of work rendered and received.

(b) UNEMPLOYMENT INSURANCE. The Alberta Liberal party supports the Liberal party in its assurance that it will institute a national system of Unemployment Insurance.

VIII.—Industry and Labor

To set up a Department of Industry and Labor to work out the problems of each, and particularly:

(a) To encourage all existing and new industries and to develop the Natural Resources for the benefit of the people and not for monopolies;

(b) To assist in finding and establishing markets for the products of all Alberta industries;

(c) To deal with freight rates and transportation;

(d) To investigate the excessive cost of gasoline, oil, farm machinery and other goods and commodities;

(e) To revise the Workmen's Compensation Act to insure the injured workmen his just claims;

(f) To deal with the whole question of Employment, Unemployment Relief, Unemployment Insurance and kindred matters relating to industry and labor.

(g) To see that no man, woman or child in Alberta shall want for food, clothing and shelter.

IX.—Alberta Telephones

WHEREAS the Public Accounts for the year ending March 31, 1932, together with the Statement of the Provincial Auditor (on page 205 of the said Accounts) disclose an alarming situation in the capital structure and operation of the Alberta Government Telephone Company;

AND WHEREAS the Government has utterly failed to evolve a plan for the management and preservation of the Telephone System in the interest of the people;

AND WHEREAS the Public Accounts do not correctly show the value of the said system;

AND WHEREAS telephone service must be maintained in the rural parts of the Province;

Youths' Problems Vital To Future Will Be Solved

The Liberal party stands for a complete investigation into and appraisal of the telephone system, and pledges itself to preserve and maintain the service for the benefit of the people.

X.—Provincial Finance

The Liberal party pledges itself to a policy of so controlling the credit of the province as to preserve the financial stability of Alberta and to preserve the ability of the province to meet its obligations and at the same time carry on all necessary social services.

XI.—Legal Reform

- Immediate reduction of court fees and legal costs;
- Simplification of legal machinery;
- Priority for three months' wages against the estate of a deceased insolvent debtor;
- Wider powers in the judges to divide property in kind in actions of judicial separation and divorce.

XII.—General Administration

- Every department of government must be reorganized and put on a business basis in order to eliminate the present enormous waste of the taxpayer's money and to meet present day demands;
- The number of members of the Legislature must be reduced;
- During these depression days all high salaries must be cut down;
- Interest rates must be substantially reduced;
- Overlapping of work in various branches done by the Dominion and the Province must be eliminated;
- Unnecessary overlapping of work done by the several Western Provinces should be eliminated.

XIII.—General Development of Alberta

To definitely work for the general development of all parts of the province, and particularly in:

- The improvement of transportation facilities and communication;
- The obtaining of a Coast outlet for the Peace River Country;
- The improvement of the homestead law, and the relief of the burden on the new settler in order to assist him in the establishment of a home;
- The enlargement and development of the Sugar Beet industry as a step towards the solution of the problems of our irrigation districts;
- The assurance of the integrity of the homes of Alberta and their maintenance;
- The evolution of a scheme of old age pensions applicable to all persons over sixty years of age;
- That the Alberta youth may be given every opportunity to assist in the development of our Province, and that the voting age be fixed at eighteen years.

XIV.—Social Credit

The Liberal party pledges itself when returned to power to employ three of the most expert Social Credit Advocates to carry on a full and complete investigation into the present scheme of Social Credit and to evolve and submit a plan of Social Credit for the Province, which the Liberal party pledges itself to submit to the Legislature for its consideration.

XV.—Monetary Reform

Urgent once in control will wreck any system. Until the control of the issue of currency and credit and the functions of government, and recognized as its most conspicuous and sacred responsibility, all talk of the sovereignty of Parliament and of Democracy is idle and futile.

(a) The Liberal party believes that credit is a public matter, not of interest to bankers only but of direct concern to the average citizen;

(b) It stands for the immediate establishment of a properly constituted national bank to perform the functions of discounting and the control of currency issue considered in terms of public need;

(c) A central bank is necessary to determine the supply of currency in relation to the domestic, social and industrial requirements of the Canadian people and also to deal with the problems of international commerce and exchange.

The Liberal party stands for a publicly-owned national central bank which will, under the control of the government of the nation, issue national currency and credit and manage the monetary system in terms of public need, for the purpose of raising the standard of living of the people and for the further purpose of advancing the economic security of the social system and the stability of the nation.

XVI.—Tariffs and Markets

Whereas the present Federal Government, by excessive tariffs, dumping duties, arbitrary valuations, cancelling trade treaties and by other restrictive regulations has destroyed our markets for farm products and at the same time maintained relatively high prices for the essential equipment of production, thus causing unemployment, poverty, idle engines and freight cars, unbalanced budgets, diminishing incomes and vanishing municipal credits;

And whereas there can be no relief from these distressing conditions until trade obstructions are removed so that our markets may again be recovered and enlarged;

And whereas in order to effect a re-opening of markets for Alberta products and the removal of restrictions on trade and an immediate general lowering of tariffs are imperative;

And whereas a revival of trade is essential to the return of prosperity in Canada and to the defeat of the proposals in the increase in the tariff made by the Bennett Government as a primary cause of the present depression;

And whereas about 75 per cent. of the population of Canada is engaged in the production of commodities from the basic industries of agriculture, mining, lumbering and fishing, and prices of these commodities have largely fallen below production cost, and as a result our people are so crippled that they have lost their buying power;

And whereas the raising of the tariff walls against trade has not only strangled all business but has kept the cost of living at a high figure, and we cannot sell if we do not buy;

1. Therefore be it resolved that one of the first things that the Liberal party must and will do is to abolish these tariff increases and take every step to increase trade;

2. Will promote trade with all nations and negotiate trade agreements with any country willing to trade with Canada, and will also restore the Liberal preference to help recover the British market for Canadian basic commodities;

3. That the two greatest blows that Canadian trade has received were the defeat of the Liberal reciprocity deal with the United States in 1911 and the defeat of the proposals in the Duggan budget for trade with the British Isles in 1930;

4. That the implements used in primary production should be admitted entirely free of tariff duty;

5. That a reciprocity treaty should be negotiated with the United States similar to that proposed in 1911; and that further trade agreements should be negotiated with other countries so that our markets may be enlarged throughout the world.

This declaration authorized by the Provincial Liberal Association of Alberta.

Should Absent Hubby Begrudge Wife Fun?

DEAR MISS DIX—I am 26 years old. Married and have two children, three and four. I lost my job and had to send my wife and children home to her people. Since she has gone back home her friends are taking her out to dances and places of amusement. I don't go anywhere because I love her and the babies too much, but when I asked her to give up her good times and stay at home with the babies she laughed at me and told me to leave her alone that she had been tied down for six years and that while she had the chance she was going to enjoy herself. She said that when I got a job we would go back together again. I love her better than anything in the world, but I am not going to put up with her running around. Please advise me what to do.

Answer: Do nothing. Let her have her little fling, which seems to be innocent enough. She is back home among the old friends of her girlhood and they are giving her a few parties. That is all the situation is when you look at it with clear eyes instead of through jealous ones.

Of course it is true, as the old proverb says, that misery loves company, and in your secret heart you want your wife to be as blue and dependent as you are. You can't hear to think of her enjoying herself when you are unhappy. It tears the heart out of you to think of her laughing when you feel like weeping, but while this is a very human way to look at the matter, it is a selfish one and, in reality, if you did not love yourself better than you do her, you can't be glad that she can forget her troubles for a little time and dance and be gay.

Pretty hard on any woman. Terribly hard when that woman is only a girl herself, with all of youth's craving for pleasure. When she is back home and her friends are taking care of the babies to give her a rest, she can get a good night's sleep. She can slip on her responsibilities. Her old friends are rallying about her and giving her good times, and it seems wonderful to her to laugh and dance and forget for a little while the shadow that hangs over her that it is a strange thing that she tells you to stop her pleasure.

The strongest appeal that any man ever makes to a woman is when he shows consideration for her happiness. So don't begrudge your wife her slice of cake. She will get fed up with it and go back, willingly and unasked, to domestic bread and butter. DOROTHY DIX.

What New York Is Wearing
By Helen Williams

3306

Most matrons and others too, will love this adorable dress. It's exceedingly smart, easy to make, besides that all important thing—its simplicity! The becoming collar emerges into a pretty scarf effect. Cool, cotton, as handkerchief linen, dimly printed, chiffon sweater-socks, slippers, lion-like leaves, etc., you'll find delightfully lovely cool materials for this one-piece dress.

Style No. 3306 is designed for size 36, 38, 40, 42, 44, 46, 48, 50 and 52 inches bust. Size 38 requires 3 1/2 yards of Shonin material.

Patterns will be cut out upon receipt of FIFTEEN cents (like in cash) and a return address. Be sure to write plainly your NAME, ADDRESS, STYLE, NUMBER, and SIZE wanted.

Our LATEST FASHION BOOK will be sent upon receipt of FIFTEEN cents in Pattern Department, Edmonton Bulletin.

Send in coins. Address all mail orders to: RAZ-MAH, 1141 10th St., Edmonton. Subscribers must allow 14 days for delivery.

Minute Make-Ups

By V. V.

By MARY E. DUGUE
The other day I got one of those sheets that various authoritative organizations send out, and on it was a lot of information about the food elements contained in green corn. Can you imagine anybody taking the trouble to dissect an ear of tender-as-love, sweet-as-sugar new corn on the cob in order to make a formula of it?

Not for me, thank you. I'll just have my green corn steaming hot from the pot, salted and peppered lightly and rubbed with sweet butter. All Sister Mary's information I need about it is of her tracks, so that they will not cut her apparent height.

ANSWERS TO QUESTIONS
Hate: Martha: You will find an excellent druidism remedy in my "Beauty Culture" booklet. This booklet also gives the hot oil treatments for promoting hair growth and thickening the salt water treatments for curly, falling hair, and advice on blonde hair shampooing.

Flapper Fanny Says
Dorothy: It is indeed possible to firm and develop the bust, and the same time reduce the weight. I'll be glad to advise you on this. I'll be glad to advise you on this. I'll be glad to advise you on this.

New Recipes For The Sweet Corn Season

By MARY E. DUGUE
The other day I got one of those sheets that various authoritative organizations send out, and on it was a lot of information about the food elements contained in green corn. Can you imagine anybody taking the trouble to dissect an ear of tender-as-love, sweet-as-sugar new corn on the cob in order to make a formula of it?

Not for me, thank you. I'll just have my green corn steaming hot from the pot, salted and peppered lightly and rubbed with sweet butter. All Sister Mary's information I need about it is of her tracks, so that they will not cut her apparent height.

ANSWERS TO QUESTIONS
Hate: Martha: You will find an excellent druidism remedy in my "Beauty Culture" booklet. This booklet also gives the hot oil treatments for promoting hair growth and thickening the salt water treatments for curly, falling hair, and advice on blonde hair shampooing.

are good ways to use up left-over corn.

Because corn is so rich in calories, it's a good idea to plan meals with this in mind. Corn is lacking in fat so we can serve it with ham and bacon. Chicken and sweet corn are natural allies, too. Corn soufflé is a delicate lunch-dish. Try it with sliced tomatoes and a very hot chili.

CORN SOUFFLE
Six ears of corn, 1 cup milk, 1 tablespoon butter, 2 tablespoons flour, 3 eggs, 1 teaspoon baking powder, 1 teaspoon salt, 1 teaspoon pepper.

Cut off the tops of the kernels and scrape out pulp. Melt butter without churning and stir in flour. Cook until bubbly and slowly add milk, stirring constantly. Add corn, salt and pepper and eggs beaten until thick and lemon colored. Beat whites of eggs on a platter with a wire whisk until stiff, beating in baking powder with the last whisk. Fold into corn mixture and turn into a well buttered baking dish. Bake 40 minutes in a moderate oven (350 degrees F.). When firm, to the touch the soufflé is done. Serve at once before baking begins to sag.

Monday's Menu
BREAKFAST: Watermelon, cranberry, cereal, cream, vegetable hash, toast, coffee. LUNCHEON: Corn soufflé, sliced tomatoes, Melba toast, blackberry jelly, milk, tea. DINNER: Salmon timbale, creamed green peas, potatoes Anna, stuffed cucumber salad, peach sorbet, sponge cake, milk, coffee.

Good Taste
By Francine Markey

My son and I are staying at a seashore hotel. He has become acquainted with a delightful girl staying at the same hotel. I often see them dancing together in the evening and I admire his taste. However, he assures me that he has no serious intentions, but that he enjoys her companionship. Would it be unkind for me to invite her to sit with us for an evening meal at our table in the hotel dining room?

MISS H. B.
If you have not met your young lady, your son should introduce her to you. Then it would be wise for you to make a point of talking to her once or twice on the porch in the hotel lobby before you invite her to dinner at your table. When dining however, your invitation should be so worded that there can be no doubt that you mean she shall sit with you only.

The sea man then cried, "Hey! Let us go immediately!" You should know that picking on my friends is something you should never do. The Tote you see are Tottenites. They've come down here to see the for the evening specified. If she sat permanently at your table the immediate difference would be that an engagement is pending. This might prove as embarrassing to the girl as to your son.

What a funny place to sit! (The Times have a race in the next story.)

A BEDTIME STORY

Story by HAL COCHRAN Pictures by GEORGE SCARRO

Poor Duncy! He was scared to death. As soon as he could catch his breath, he shouted, "Hi! Oh, save me from this scary octopus!" "I simply cannot understand why you should grab me by the hand. I didn't do a thing to make it start this awful fun."

(READ THE STORY THEN COLOR THE PICTURE)

The sea man was the first to hear the shout. He answered, "Have no fear! I'll save you in a jiffy lad. There'll be all right."

The Times then rushed to the scene. "I think that octopus is mean," said Gody. "It's no wonder that it filled the lad with fright."

The sea man then cried, "Hey! Let us go immediately!" You should know that picking on my friends is something you should never do. The Tote you see are Tottenites. They've come down here to see the for the evening specified. If she sat permanently at your table the immediate difference would be that an engagement is pending. Stalled For More Than 36 Hours In Slave Lake Areas

Tired and Travel-Worn People Tumble Off N.A. R. Train Here Friday—Bore Hardships Cheerfully.

Travelling and chugging into the city Friday night was the N.A. R. train carrying 40 hours' worth of weary passengers. The train arrived in Edmonton Friday evening having been stalled for more than 36 hours in the Slave Lake flood district since Wednesday by impassable track conditions.

The train which pulled into the city Friday night was a return trip from Smith, where it proceeded Wednesday. Passengers were carried in cars from Slave Lake, where their original train was stalled for more than 36 hours, to Smith, where they boarded the cars that carried them to the city.

GLAD TO REACH CITY

Tired and travel-worn, the weary passengers tumbled off the train here Friday night to be greeted by relatives and friends, and the city as a whole was obviously delighted to finally receive them.

R. F. Soper, Edmonton business man, vividly described conditions surrounding the marooning experience. Mr. Soper had remained on the train at Slave Lake to tell news of the marooning to his family.

While all the passengers bore the experience cheerfully, said Mr. Soper, many of them were suffering from many during the 36 hours that the train was halted on the south of Slave Lake.

Food was running low, as the train was stalled for so long, and it was difficult to continue. There was no lack of water, as passengers avoided themselves of flood waters.

"The train left McLean on time and we were proceeding on schedule until we reached Slave Lake on Wednesday. We stopped there for a few hours, and then, for an apparent reason, we were stalled to a point one mile south of Slave Lake where the train was hopelessly stalled," said Mr. Soper.

"Water on the track there was from five feet deep and before we could back up again to Slave Lake there was a without behind us and we were actually marooned by flood waters. It was possible to walk back to Slave Lake, but there was only one store there and its supplies were running low. It was practically impossible to get any food there."

"They were still serving food on the train during the time we were delayed but we had no idea of how long we would be stalled and the outlook began to look serious."

GREAT DISCOMFORT

"Great discomfort was suffered by families in the two day coaches. One lady had four children. They also had to pay for their own food. Everybody on the train signed a petition to the provincial government asking immediate aid but we received no reply and needed. The train crew was helpful but there wasn't much they could do."

Passengers stayed on the train during the entire 36 hours that the train was at Slave Lake. Selling of supplies to them by a regular passenger train was forbidden, after the working men's supplies began to run low. A dance was held at Slave Lake Thursday evening by the train residents and was amicably attended.

On Friday, it was announced that the transfer of passengers from the train to the city would be made in two miles an hour, said Mr. Soper. It was necessary that a man walk ahead of the engine, and that there was no difficulty on the track. Large crews of men were

CHANGE SOUGHT PRESENT METHOD CITY BUSINESS

Seeking a showdown on the system under which business is transacted with city commissioners and departmental superintendents, Mayor J. A. Clarke declared Saturday he would have an order next week which would provide that any information sought by city commissioners should be supplied by an employee of city departments and not necessarily by the heads of departments in person.

The mayor referred particularly to the relief department.

It is often more convenient to deal directly with a departmental employee rather than a superintendent, the mayor explained.

"Employees should feel free to give information to commissioners when requested, as they frequently occur when business has to go through existing legal channels."

RISK INVOLVED AT LOW PRICE

With bridges falling, menacing drained piling up, and water rising in the Peace River flood zone in the early part of this week, provincial government workers combating the rising tides were particularly anxious to gain by the Edmonton Bulletin. Considerable personal risk was involved in the work, it was stated.

It was not to be determined whether or not the government decided its usual policy of compensating employees for the percentage for married men, from pay checks.

Ridley College Principal Pleased With Cricket Pitch

Asked Friday by the Bulletin what sort of grounds they had played on during their tour of Western Canada, Dr. Giffiths, principal of the Ridley College, whose team of young cricketers are playing in the city this week, expressed delight with the Edmonton cricket ground, situated in the beautiful Saskatchewan. The grounds were well rounded off links, and towered over by the University building with the high level bridge stretching across the sky over the east.

"We were very pleased with the condition of the playing pitch, outfield and the new building which made another lovely picture."

Principal Giffiths, who had been in the city for some time, had been good, but the grounds were not as good as they were compared with Edmonton's.

The team is playing again this afternoon, game starting at 1 o'clock on the Golf Links pitch.

Nine Airplanes Now Anchored At Cooking Lake

Presenting a fine spectacle, nine pontoon-equipped airplanes were moored at the South Cooking Lake, near the city of Edmonton, on Friday. The planes, which were privately-owned machines from the United States, were represented in the fleet.

Capt. James Bell, airport manager, expressed the opinion that the largest fleet of planes to be seen at the Cooking Lake was at one time.

Gleaned From Today's News

Edmonton Exhibition cancellations

Miss Jean Andrews of Edmonton is leaving the city over the weekend via C.P.R. for Seattle.

Edmonton Exhibition cancellations

Edmonton Exhibition cancellations are being made for the week of July 13-14. Sunday via C.N.R. Midway train will arrive Sunday morning, routed via C.P.R. lines.

In aid of the legal defence of the Ottawa trekkers arrested at Regina, a tag day was being held on city streets Saturday. The affair is being sponsored by the Edmonton Citizens committee.

Members of the Edmonton Kiwanis Club will be entertained at their Monday noon luncheon in the Macdonald Hotel by a troupe from The Follies of 1935, the grandstand attraction at the Edmonton Exhibition.

Refuting of several clauses in agreements between the All-Canadian Union of Civil Employees and the city will be undertaken before they are signed, according to information received from city commissioners. The new agreements will be submitted to union representatives in the near future.

NAOMI LANG

C.N. RAILWAY HEAD ON WAY TO OPEN EXHIBITION HERE

Headed by Hon. C. P. Fullerton, chairman of the C.N.R. board of trustees, the party of Canadian National Railway officials reaching Edmonton today will be accompanied by the C.N.R. band. The band will leave the city Saturday evening, it was stated at C.N.R. office here Saturday.

Mr. Fullerton will officially open the Edmonton exhibition at 8 p.m. Monday evening and it is believed that the band will leave the city immediately following the affair.

A statement by the C.N.R. band, the officials proceeded to the city. In the party are S. J. Johnson, general manager of the C.N.R. and J. Edward Labele, K.C., minister of the C.N.R. band. The band will leave the city immediately following the affair.

The Inquiring Reporter

Girls with long pants who last Friday were seen in the city, the first time, seemed to have been the result of a new fashion. The girls were seen in the city, the first time, seemed to have been the result of a new fashion.

Five Airplanes Now Anchored At Cooking Lake

Presenting a fine spectacle, nine pontoon-equipped airplanes were moored at the South Cooking Lake, near the city of Edmonton, on Friday. The planes, which were privately-owned machines from the United States, were represented in the fleet.

Major Withdraws \$12,000 Cheque From Contractor

Taking action on complaints made that the H. G. MacDonald Co., which is handling the city's street-graveling contract, is evading the city's financial obligations by giving work to men who are not entitled to it, Mayor J. A. Clarke announced Saturday he was withdrawing a \$12,000 cheque from the company. The contractor had been ordered to pay the cheque by the city council last week.

Terms of the contract between the city and the company provided that married men who are tax-exempt should be given the graveling jobs. This clause has been interpreted by the company, the mayor said.

12 Constables For Special Duty

For duty during exhibition week, 12 constables were sworn in by Mayor J. A. Clarke Saturday afternoon. These men will on duty on city streets Friday morning and will be used principally for regulating traffic in the fair grounds, and along the main traffic arteries leading to the exhibition.

Military Orders

NAVAL ORDERS

The Edmonton Co. Royal Canadian Naval Volunteer Reserve will assemble at 1130 street and Jasper avenue at 8 a.m. Thursday, July 13, to take part in the annual parade. The parade will start at 9 a.m. and will be held on the city streets. The parade will be held on the city streets.

Gives Daring Performance

GIRL DARES DEATH WITH RACING CAR

Miss Marjorie Kemp Features Midway Show at Exhibition

These are a good many ways for girls to make a living in this hard-boiled old world. Some are as unromantic as sweeping floors, making beds and washing dishes. Henry works to be sure, but rather unromantic to most girls.

Others entertain with thrill and excitement.

It's one of the latter kind that Miss Marjorie Kemp has. But to most Marjorie Kemp on the streets of Edmonton, one never would believe that her life has been one of racing speed, and that she is a champion driver.

Miss Kemp's performance was featured as the most dramatic in the world's fair must be at Century of Progress in Chicago.

Her job is to drive a high speed racing automobile on the perimeter of the fair grounds. The car is a 1934 Ford V8, and she is a champion driver.

Police Court FLOOD LANDS ARE IMPROVING

Under clear skies, flood lands of the north continued progress to a return to normal conditions Saturday. Good weather, which has favored the entire north since rain stopped Wednesday and Thursday, was again helping to dry up the signs of a change for the immediate future.

Reconstruction of trunks and bridges was being carried out in the Peace and Peace River districts with a fall in flood levels definitely noticeable.

Lower Slave Lake, however, continued to be the most unfavorably affected of all northern flood zones. It is expected that some time will elapse before a material drop in excess-water of the Lesser Slave lakes takes place.

John Callaghan, general manager of the Northern Alberta Railway, was in the Lesser Slave district Saturday directing rail repair operations.

City Considers NEW POWER PLAN FOR CALGARY CO.

Clearing its decks for action, city council here today considered a plan to build a new power plant for Calgary County. The plan was drafted by a city engineer and is being considered by the city council.

The plan is to build a new power plant for Calgary County. The plan was drafted by a city engineer and is being considered by the city council.

ROAD REPORT

With a few exceptions, road conditions in the northern section of the province were improved Saturday, according to the Alberta Motor Vehicle Bureau.

A detailed report follows: Jasper highway, improving, cars getting through to Jasper without being stuck. Peace River highway, ferry at Smith operating, government saw at Slave Lake not operating, no rain, conditions improving slightly. St. Paul road, rough to good. Edmonton—Lloydminster, good. Edmonton—Wainwright, good. Edmonton—Hudson, good. Edmonton—Provost, good. Edmonton—Vermilion, good. Edmonton—Meadow Lake, good. Edmonton—Cherhill, rough; special no traffic between Edmonton and Vermilion, in effect between Cherhill and St. Paul.

WHEAT PRICES AT WINNIPEG REMAIN IDE

WINNIPEG, July 13.—While outside markets continued their wobbly slide to lower levels, wheat prices held on in the Winnipeg Grain Exchange today in a dull session. Values closed unchanged to 1/2 cent lower, July 1st and August 80c, cents.

Lack of foreign demand for Canadian wheat accentuated local idleness. Selling was light and support quickly waned. While Chicago was off, there a bushel early and Liverpool prices closed 1/2 cent lower. Buenos Aires displayed additional strength. That market closed 1/2 cents higher, countered by traders here as continuing reports of unfavorable crop conditions in the Argentine.

Cash grain closed about unchanged. Cereals gained slightly fractionally.

1. Coming Events

NATIONAL and British Empire Exhibition
The 1935-1936 National and British Empire Exhibition, which opened on June 1, 1935, at the University of Toronto, is now in its second year. The exhibition is a joint venture of the National Museum of Canada and the British Museum of Natural History. It is the largest and most comprehensive exhibition of its kind in the world. The exhibition is held in the University of Toronto, which is a world-famous institution. The exhibition is a great opportunity for Canadians to see the best of British and Empire products and to learn more about the world. The exhibition is a great opportunity for Canadians to see the best of British and Empire products and to learn more about the world.

3. Weddings

DOUGLAS-BISHOP
A quiet wedding took place Thursday, June 13, at St. John's Church, Edmonton, Alberta. The bride was Miss Douglas, daughter of Mr. and Mrs. Douglas, and the groom was Mr. Bishop. The ceremony was performed by Rev. J. H. Bishop. The bride wore a white gown and the groom wore a dark suit. The wedding was a private affair and only close friends and relatives were present.

10A. Travel

Via Greyhound Lines
Pacific International
San Diego, California
May 19, 1935, to June 19, 1935
The Greyhound Lines, which operate a regular service between Edmonton and San Diego, California, are now advertising for passengers. The service is a convenient and comfortable way to travel between the two cities. The Greyhound Lines are a well-known and reliable transportation company. The service is a great opportunity for Canadians to see the best of California and to learn more about the world.

JACOBS STATES SCHMELING FAVORS FIGHT WITH LOUIS

BERLIN, July 13—Joe Jacobs, United States manager of Max Schmeling, former heavyweight champion, last night said the German pugger had agreed to fight Joe Louis, Detroit boxer, in New York in September. Schmeling informed Jacobs by telephone, the latter said that inasmuch as Max was troubled with his hands, he would not fight in the hope of hurting him to a fight for the championship with Jim Braddock. Schmeling said he was confident he could defeat Louis.

PANS by Bill Lewis

EDMONTON race-goers look forward with more than a little anticipation today to the opening of the Exhibition, race meeting on Monday. . . . Few cities on the continent have developed a horse-consciousness as fast as Edmonton has in the last few years, and the results of the ranks of turf followers are anxiously awaiting the coming of the thoroughbreds. . . . The meet lasts six days and officials are looking for it to be one of the best yet staged here.

A really big shipment of horses will leave Calgary tonight to come here for the meeting. There are well over 200 horses in consignments which will arrive early Sunday morning, and they are the best racing stock in Western Canada.

RIDLEY College's fine young cricket squad made a great impression on local enthusiasts yesterday when they defeated a selected Edmonton team in the first of two games to be played here. . . . The 23 for four, 44, which pretty well demonstrated the class they possess. . . . However, Edmonton cricket officials believe they have a better evening to send against the tourists today and are hopeful they can win the match. That remains to be seen, though.

Going interest will centre over the week-end on the local golf competition which is being played over the beautiful fairways of Mayfair Golf and Country Club. . . . The event continues today and Sunday and Mayfair hopes to retain the trophy won last year. Despite the fact they will have a lot of opposition both from local and outside entries.

CHASTA Royals lost a close and well played ball game to Mirror last night by a score of 4-2. . . . The exhibition tilt provided a real scrap all the way through nine innings, with the issue all in doubt, which made it highly interesting for the spectators. . . . Red Tulloch, who formerly shone in local baseball circles, did a nice job of pitching for the winners, allowing but five hits.

Royals tackle Delburne Elks on Sunday afternoon in another game that should prove highly interesting. . . . Delburne has practically all players of last year's Tourist squad, and Mayfair Kings are expected to have quite a job on their hands in trying to win over them.

WALTER MCINTOSH and Harry Kinloch marched into the final round of the men's singles in the current city tennis tournament, being played at Glenora Club, where Vice Johnson and Bessie McAvoy are expected to be in the ladies' final. . . . There were many stern matches in both men's and women's.

RAIDLEY'S FINE YOUNG ELEVEN EASY WINNERS

Easterners Defeat Local Cricketers in Match Here Friday

The Ridley College touring cricketers arrived in Edmonton Friday and were welcomed by the first local summer day of the year. . . . Playing on the Golf Links against a selected side from the local league, the Ridley team won by a 2-0 score. . . . The Ridley team was in a tight spot, but he was not to be outwitted. He was in a tight spot, but he was not to be outwitted.

When the Edmonton side had lost the match, the best start was put by Percy Johnson and young Walter McIntosh, who, with Tommy Windsor, who was in earlier, made a great impression on the local spectators.

Several catches were missed by the Ridley boys and their fielding, though spotty, was smart and the local boys could not take chances in their own half.

Cameron and Wilson each got three hits, and were the best bowlers seen in the Ridley side. . . . Another game of the local league will be played this afternoon at the Golf Links, the pitch starting at 1 o'clock and the local officials are confident that there will be a reversal of the result, as they have selected the best players in the local league for this game.

Elowitz Seeking Better Grid Terms With Detroit Club

MONTREAL, July 13—Ab Elowitz, brilliant backfielder with Ottawa Roughriders in the Big Four Football League, said here Friday that he would play with the Roughriders again next season unless Detroit Lions met his terms. . . .
